

## INTRODUCTION

My goal is to contribute to a challenging and professional work environment. I aim to leverage my skills in various web and mobile technologies, demonstrating both the ability to work independently and collaboratively in a team. Eager to play a pivotal role in the development of both the organization and myself, I bring a commitment to utilizing my technical skills with honesty and devotion. Dedicated to making meaningful contributions, I strive to contribute to the success of the organization.

## PROJECTS

- Developed a "**Restaurant Management Website**" using the **MERN stack**, featuring order management, an admin panel, menu customization, firebase authentication, and seamless Stripe payment integration.
- Developed a "**Personal Expense Tracker Application**" using **Next.js 14** and managed data with **Drizzle ORM**, featuring budget management tools, expenses list, and an intuitive dashboard. Implemented secure user authentication.
- Developed a user-friendly "**Home Service Application**" with **React Native** and **HyGraph**, enhancing service scheduling for optimal user experience.
- Collaborated on a **group project** focused on developing a **fraud detection application in medical insurance claims**. My role involved overseeing project-related reports, development of UI and contributing to the research paper.
